

INSIDE HER SEX

Inside Her Sex is a thought-provoking documentary that explores female sexuality and shame through the eyes and experiences of three women from different walks of life, each brave enough to chart her own course of sexual discovery.

While we live in a highly sexualized society, the messaging around sexuality, particularly female sexuality, is distorted and rife with shame. What we should look like, who we should want, what we should desire...in fact, who we should be, is dictated to us from screens and pages and people. As if there is one correct answer.

Stepping outside the common narrative is never straightforward. Exposing our deeper selves can be terrifying, even risky.

Candice, Elle, and Samantha have little in common. Not their age, not their hometowns, not their family circumstances. But they are all women. They are all sexual. And be it through circumstance or happenstance, they have each faced their sexual selves head on, and chosen to step outside the bounds of what society has dictated they should be, raising some interesting questions:

What happens if we are able to tap into our innate sexuality? To push beyond the bounds of societal structure and expectation? To stand up to powerful messaging and divert from the prescribed course?
