

BEAUTIFUL FACES

A 1 x 75' Documentary from Say Yes Quickly Productions

Beautiful Faces offers a compelling look at one of the world's most remarkable hospitals, the disfigured young patients to whom it offers new lives, and the team of surgeons, physicians, and medical professionals who believe it's the best place in the world to practice their unique, life-transforming craft.

You'll come away convinced that health-care can be affordable, humane, and excellent, and that every one of us deserves a face with which we can bravely meet the world.

Beautiful Faces interweaves the stories of patients and their families who come to the reconstructive plastic surgery unit at Hospital Gea Gonzalez seeking physical transformations that will renew their own and their loved ones lives with the personal stories of the enormously talented medical professionals whose work is both their passion and their gift to humankind.

The film chronicles the remarkable community of caregivers and care-receivers who come together on the hospital's fascinating fourth floor, and who profoundly influence each others lives. From Dr. Fernando Ortiz Monasterio, the beloved patriarch whose demands for excellence from his subordinates remain exacting, to four-year-old Sebastián Castillo, whose irrepressible enthusiasm for life helps him cope remarkably with the challenges of Crouzon's syndrome, Beautiful Faces is a mosaic of stories--the richly visual tales of people who meet in a singular place and who collectively understand that in valuing individual lives and striving to make them better, we value all of humanity.
